

I am writing to express my concern with Sinclair Group's plans to air the heavily partisan anti-kerry movie 'Stolen Honor'. This is a blatantly partisan move by a right-wing ideologue to try and swing the election towards the Bush administration. This is not news! This is propaganda, and it should be illegal!! No one person should have the power to change the outcome of an election to go the way of his personal beliefs, especially when the outcome will most likely result in legislation that will deregulate the communications industry so that Sinclair Group will have winfall profits. There is a blatant conflict of interest here!! Please stop this!!
